## KEY HIGHLIGHTS OF THE PEUGEOT 508 / 508 SW

### 1.6 e-THP TURBO ENGINE AND EAT6 GEARBOX

The new Euro 6 1.6L e-THP petrol engine provides high power (163hp) and torque (240Nm), giving the 508 a smooth and responsive drive. Equipped with a Stop & Start function and paired with the new EAT6 (Efficient Automatic Transmission 6-speed) gearbox, it is also extremely fuel efficient (up to 17.2km/litre EC Combined Cycle) and environmentally friendly.

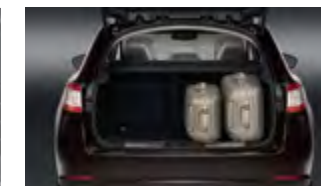

### FULL LED HEADLIGHTS TECHNOLOGY

The new 508 offers full LED headlight technology, a premium feature only found in luxury cars. These headlamps are brighter and more energy efficient than xenon and Halogen lights. They also set off the sculpted design of the 508 chromed grille, giving it a captivating feline look.

### SMEG 7" COLOUR TOUCHSCREEN

Perfectly positioned for the driver, the touchscreen system gives you direct access to the SMEG factory-fitted navigation system, the onboard computer and all its multimedia functions (radio, CD, Bluetooth, hands-free kit, music via the USB connection or audio streaming), and the large reverse camera.

### EASY BOOT ACCESS WITH ELECTRIC TAILGATE\*

The new 508 SW comes with a motorised tailgate for convenient access when your hands are full. This can be controlled either from the dashboard, remotely or a switch on the tailgate itself.
